To our customers and partners,

Littelfuse would like to notify you about changes affecting our 1200V SiC dual diodes “common-cathode” in TO-247-3L package, following the obsolescence of some of the materials used in their manufacturing, and a change of OSAT.

A replacement part number will be provided for some of the obsoleted devices.

The new versions of our products, when provided:

- will be identical in their function to the obsoleted part,
- can be identified by their marking with a “A” suffix,
- will be qualified according to AEC-Q101.

The current part numbers without A suffix can be ordered until exhaustion of the available inventory, after which only the new version will be available.

Qualification reports are available on request.

Please contact your Regional Sales representative or Field Application Engineer for any inquiry.

Best Regards,
Francois Perraud
Product Marketing Manager, SiC
Littelfuse, Inc.

Product Change Notice (PCN)

DETAILS

Affected part numbers

Affected Part Number	Replacement part number
LSIC2SD120E10CC	No replacement
LSIC2SD120E15CC	No replacement
LSIC2SD120E20CC	LSIC2SD120E20CCA
LSIC2SD120E30CC	LSIC2SD120E30CCA
LSIC2SD120E40CC	LSIC2SD120E40CCA

Summary of changes

	Discontinued version	Replacement
EMC change	E500HA	G700HF
Polyimide change	3400	4104
Qualification change	-	AEC-Q101 qualified
Marking change	-	"A" suffix
OSAT change	Fastech Synergy Philippines Inc	SP semiconductor Co. Ltd.

Schedule

Old PN/Last time buy:	until exhaustion of the inventory
New PN/Samples:	qualified samples available now
New PN/Orderable:	June 2021
