Performance USB A Connectors That Last

Product Release

USB1130 & USB1135

Vital Stats

GCT has launched two USB A connectors with extended mating cycles and enhanced current rating over standard products. The USB1130 and USB1135 are the latest additions to the USB range and are perfect for fast charging and high traffic applications, rated to 10,000 and 20,000 mating cycles respectively.

USB1130

USB

Type A 2.0

Mating Cycles

10,000

Current Rating

3 Amp

USB

Type A 3.0

Mating Cycles

20,000

Current Rating

3 Amp

Alternative USB A Products

USB1086

- Vertical top-mount USB A 3.0 socket
- Tested to 20,000 mating cycles
- Blue insulator to denote USB superspeed and reliability
- Perfect for high-traffic docking and charging applications

USB1125

- Horizontal top-mount USB A 2.0 socket
- Short 1mm shell depth for space-restricted designs
- No lead-in mating tabs in for panel-flush finish
- Tested to 5000 mating cycles

USB1115

- Horizontal mid-bottom mount USB A 3.0 socket
- Sculpted, mating tab-less entry face
- Perfect for compact, flush designs
- Tested to 5000 mating cycles
