IS45S16400J-6TLA2-TR

Description of Change: The 4Mx16 3.3V SDRAM product listed above is transitioning from its assembly location at SPIL in Hsin-chu, Taiwan to Unimos in Shanghai, China. There is no change to fit, form, or function for this 54-pin TSOP2 package. The Country of Origin (COO) changes from Taiwan to China.

Unimos is already in production for other ISSI Automotive grade SDRAM with the same package.

The change is planned as soon as possible, in order to minimize lead-time.

Rationale for Change:

SPIL plans to phase out production of this type of package. This transition to Unimos ensures the continued long-term product availability of ISSI's 4M x 16 SDRAM with high-quality.

Schedule:

Changed Part Status:

Mass Production
