

NO:	SW-105	PRODUCT:	A6D and A6DR DIP Switch
DATE:	November 2014	TYPE:	Modification - Change Production Management

A6D and A6DR DIP Switches Change Part Numbers

Omron Switch and Devices Corporation will transfer direct management of the **A6D** and **A6DR** DIP Switch families to our factory in China, in order to facilitate tight control and oversight of the product lines and manufacturing. Effective **January 1, 2015**, all products within those families will be directly controlled by Omron Electronic Components (Shenzen) Ltd.

As a result, all part numbers belonging to these families will be changed to include “BY OMZ”, placed at the end of the part numbers within our computer system. Additionally, the Lot Code suffix for these families will change to reflect the new management of those switch families.

There will be no impact on technical specifications or price as a result of this change. The part number, product code (internal to Omron) and lot code markings will change.

NOTE: This is NOT a Country of Origin Change, nor is it a change to the manufacturing site. Part numbers within datasheets will remain the same.

Effective Date

Effective as of our **January 1, 2015** shipments.

Changes

	Before the change	After the change
Country of Origin	China	China
Production Control	Omron Switch & Devices Corporation (OES)	Omron Electronic Components (Shenzen) LTD. (OMZ)
Part Number (Example) Lot Code Suffix (Example)	A6D-8100 2523RN 	A6D-8100 BY OMZ 2523CN
